JAN 30 2007

To: Mr. Wu (Examiner
From: Randy Akins (Tucson, AZ)
Date: 29 January, 2007

Regarding: Application 10 / 600,418

Hello Mr. Wu,

I am forwarding this request to you regarding my application
(# 10/600,418) under amendment (1.312) to include the benefit of
my priority claim of my provisional patent (60,390,749) included in
my application (see page 2-3) attached.

Sincerely,

Randy Akins
520-331-7550 c.

P.S. Please note the following attachments.

1. Copy of the Utility Patent application Transmittal page (A), for my non-provisional application noting the provisional patent priority in box 18.
2. Copy of my published patent application (B) noting my provisional application no. 60,390,749 filed on 6-21-2002.

2.

Application: 10/600,418

Please include this amendment in the first sentence of my Specification following the title.

This application 10/600,418 claims the benefit priority of my provisional patent application number 60/390,749 as filed on 6-21-2002 in it's entirety.

Sincerely,

Randy Akins
520-331-7550 c.

3.

Application: 10.600,418

Remarks:

Although the Patent Office recognized my provisional patent application in the first filing receipt the provisional patent was inadvertently not included following the title and in the first line of the specification.

No petition to accept this late claim is necessary since the Patent Office recognized the Claim for Priority as shown in that first filing receipt.

Mr. Wu, please send (or have your tech support send) an email message to publications with approval as soon as possible since my patent is in final data capture.

Sincerely,

Randy Akins
520-331-7550 c.

(60) Provisional application No. 60/390,749, filed on Jun. 21, 2002.

The present invention is a computerized image-viewing device that allows the user to sequentially advance or reverse stored images by voice recognition and/or other sounds, remote-control, navigational buttons or one of the many kinds of adaptable computer switches. There is a LCD or Plasma-related display screen connected to a computer box where images are stored, arranged and edited.
